PROVINCETOWN-TIP OF CAPE COD

There are two strange seasons in Provincetown on the tip of Cape Cod. One is when the weirdos are in residence and the second when they are not. The quiet streets in the cold off-season is 180 degrees from the summer months when thousands of people in cars nearly sink this tiny town built on the big sand pile. It's a magnet for the strange and it's a spectacle for the tourist. It's also part of the National Seashore preserving the magnificent dunes and beaches for

Selectmen's Meeting

FEBRUARY 26, 1985 - by VIRGINIA ARRAL

NEW HARBOR PATROL BOAT CONSIDERED

A concensus of agreement among Police Chief James Moran, Shellfish Warden Al Pauline, Harbormaster Lloyd Haskell and the Board of Selectmen concluded with the board deciding to draft an article for the annual meeting and to discuss the matter with the Finance Committee. Each department head outlined his reasons for urging the purchase of a town Harbor Patrol Boat and hoped the Selectmen would sponsor an article. Selectmen advised the group to prepare specifications for a bid with a tentative date of June 30th.

As presented to the board, the group's request stated, "The Town of Mattapoisett, being a coastal community, has approximately 17 miles of shoreline. Along this shoreline we have many beach and mooring areas, including Brandt Beach, Brandt Island Cove, Antassawamock, Mattapoisett Shores, Shell Beach, Marshmere, Mattapoisett Harbor, Crescent Beach, Angelica Point, Point Connett, Peases Point, Hollywoods, Harbor Beach and Aucoot Cove.

"In all these areas boats are out on moorings. These areas are wide open to vandals who break into boats and steal very expensive marine equipment and cause damage to the boats.

"The value of boats moored in Mattapoisett waters must run into the millions of dollars. The town, not having a town-owned patrol boat, relies on the convenience of boat owners who volunteer the use of their boats when they can for different situations that arise. This is a hit and miss way of protection for

boat owners.

"The reason for putting an article in the warrant is to see if the town feels it wants to purchase a town boat that can be used by three departments (police, harbormaster, shellfish warden) involved with the safety of the harbor."

The Harbormaster said, "I would use the boat for emergency situations during the week for distress calls, towing disabled boats to safety, checking illegal moorings and boats broken away from their moorings."

The Shellfish Warden said, "I would use the boat for checking on shellfish violations, confiscation of illegal lobster gear and checking on illegal scalloping."

The Police Chief said, "I would have the department use the boat on weekends and nights to check for vandals breaking into boats on moorings. There would be a patrol to check safety equipment, respond to medical emergencies with E.M.T.s on board, check unregistered boats and overloading, lobster poaching and any drug activity in the harbor. Also, we would enforce speed and water skiing in the inner harbor and any other violations that occur."

Selectmen Chairman John DeCosta said the board is very sensitive to the needs of having a boat in the harbor. "We will give your request every consideration."

Selectman James F. Huntoon asked Haskell if he felt it was more important safety-wise to have the boat or repair the wharf. Haskell responded saying, "I say we use it now for the boat."

Selectman Frank Suzan explained that it might be possible to channel funds from the wharf repair account to purchase the boat, but that the decision is up to the voters. Suzan also asked who will coordinate and arbitrate the use of the boat. Chief Moran

said they would work that out.

Moran informed the board that they have checked out a Mattapoisett-built, stern-drive, inboard/outboard boat with a 117 H.P. Volvo engine. The cost is approximately $20,000, Moran said, and there is a radio in it. Moran said he understood the boat will have to go out to bid.

Pauline said his 17-foot Boston Whaler is a good boat but does not have the capabilities for rough weather. "It can only do just so much", he said.

In other business, Selectmen:

READ A LETTER from Mr. and Mrs. James Gardiner of 2 Centre Drive expressing their appreciation to the board and to David Crook, building inspector.

The letter read, "We would like to take this opportunity to thank the Board of Selectmen and David Crook, newly appointed Building Inspector for the Town of Mattapoisett, for their help with our recent problem during the renovation of our home.

"The problems that we encountered could only be overcome by people who were willing to help and maintain an open line of communication. The Town, and in particular, David Crook, exhibited a great deal of sensitivity which allowed us time to work out our problems to the satisfaction of all involved."

(The Gardiner house, located in the Harbor Beach section and in the flood plain zone, did not conform to flood plain regulations and the building inspector had put a cease and desist order on further construction. It was determined that the walls could not support a second floor. The Gardiners were give given the opportunity to resolve the problems at the January 22 Selectmen's meeting.)

APPROVED THE SUGGESTION of Selectman Huntoon to propose to the Finance Committee to give Town Clerk Lois Ennis a one-time

It suggests a small boat, a personal way to get where you want to go. We're that kind of bank. Informal, accessible and helpful. We make it easy for you to achieve your financial goals.

It has the precise lines which reflect attention to detail. That's how we handle your business. Our service is reliable and consistent. In a word, professional.

Lastly, it reflects our community and its boating tradition—something we've been a part of for more than 150 years. We're close to our customers and responsive to local needs.

A reminder to return your census form to Ms. Ennis, Municipal Census Supervisor, as soon as possible. If you wish you may call the office (758-6707) with your information. The response from the people of Mattapoisett has been gratifying and has been responsible for the orderly conduct of the State Census and the local Annual Street List. What is perhaps not generally known about this couple is their exciting and demanding "volunteer work"!

For the past six years they have been involved in Bishop Stang High School's major fund-raiser MANHATTAN. For the past 4 years their official title has been "Chairpersons for Entertainment". This is no simple task. MANHATTAN takes pride in providing professional high quality entertainment in a night club atmosphere.

In order to make MANHATTAN exciting for repeat ticketholders (and once you have been you will want to see it again next year), the Bessettes have not relied on the same performers. Any time during the year Claire and Russ might be in Boston or Providence viewing an act as a possible attraction for MANHATTAN.

"We have been in each New England state in our search for quality acts. We enjoy it. Talent agents now contact us; friends recommend someone they have enjoyed or we select some performer to see from large city newspaper ads, etc.

"After viewing the performers if we feel that their act was exciting we will contact them at intermission, meet with them backstage and set up a time for further discussion and negotiations.

"We are involved in actually signing the performer to a formal contract," states Russ.

Claire says, "It's a challenge - but we enjoy it and have had many wonderful as well

If you would like to hear the sounds of "Sonny Tavares and Friends" in the Silver Jubilee Room or "The Harvest Home" playing in the Irish Pub or the "Bourbon Street Jazz Band" in the Alumni Room you must attend MANHATTAN. These are just a few of the entertainers "discovered" by the Bessettes.

A total of 12 rooms offering food, entertainment, camaraderie, and support for Bishop Stang High School are all elements of MANHATTAN.

This year MANHATTAN will be held at the North Dartmouth school campus the weekends of March 22nd and 23rd and March 29th and 30th.

Our Gemprint machine

GEMPRINT.® THE DIAMOND PROTECTOR.

If your diamond was lost or stolen, and then recovered, could you tell it from any other? Probably not.

Our Gemprint instrument uses a laser-photo process to produce a Gemprint "fingerprint" of your mounted or unmounted diamond in seconds. It positively identifies your diamond from any other stone.

Federal and local law enforcement agencies have identified recovered diamonds because they had been Gemprinted. And many insurance companies offer premium discounts if you have a Gemprint Registration for your diamond.

If you care about your diamond, whatever its size, protect it with a Gemprint Registration today.

We include a Gemprint Registration free with the sale of each diamond ¼ carat or larger.

- 3 THIRD PRIZES:

GEMPRINT Gemprint Certificates

Yes, each certificate is a $35.00 value that will register your diamond on file in the Chicago Central Registry forever.

Read the details at right and you'll understand why Gemprint is a value indeed.

So, come on in and register!

Let us inspect and clean your jewelry at no charge at the same time.

And remember, no purchase is necessary.

Laurel Tate Selected

ORR STUDENT IN ALL-STATE BAND

Congratulations to Laurel Tate, daughter of Mattapoisett residents Charles and Pat Tate, for her successful audition into the All-State Band on French Horn.

A member of the Old Rochester Regional High School Concert Band and drum major of the Marching Band, Laurel is also active in the Regional Symphonic Band, Marion and Mattapoisett Town Bands, and the S.M.U. Spotlight Orchestra for gifted high school students of the southeast region.

Many hours of practice are necessary to progress on one instrument, and Laurel takes private lessons on two (French Horn with Kit Potter and Piano with Doris Welty). Miss Tate is also an honor student and athlete at ORR, who seems to find time to enjoy friends,

"Twas the night of the 27th when all through the house not a creature was stirring not even a mouse.

When out on the lawn there arose such a clatter I went to the window to see what was the matter.

When what to my wondering eyes should appear, Rochester's finest and a fire truck, o dear.

I ran outside and what did I see?

Chief Clapp pointing to the fire in my chimney, a big surprise to me!

We hold them all in the highest ranks, thus this rhythmic saying "thanks".

Deepest gratitude to the Rochester Fire and Police Departments.

OPEN HOUSE FOR MATERNITY UNIT

Tobey Hospital Administrator Charles S. Kinney has announced that the Hospital will host an Open House on Sunday, March 10th. The public is invited to view the recently completed Birthing Room and the newly renovated Maternity Unit between the hours of 1:00 and 3:00 that afternoon.

Members of the medical and nursing staffs will be on hand for guided tours throughout the Unit and to answer questions you may have. Following the tour, refreshments will be served by members of the Tobey Hospital Guild in the lobby adjacent to the Unit.

A latest concept in birthing, Tobey is pleased to offer the new Birthing Room which allows mothers to labor and deliver in a setting that closely imitates a home delivery. The recent refurbishing of patient rooms, the nurseries, the delivery room renders the entire Unit a pleasant one. The decision to renovate the Unit and to add the Birthing Room facility came about following a recent feasibility study conducted by the Hospital.

WHALE Purchase

WHALE ACQUIRES JONES CARRIAGE HOUSE-FORMERLY PART OF COUNTY STREET ESTATE

On January 15th WHALE purchased the historic Jones Carriage House at 54 Seventh Street from Mr. and Mrs. Arthur Xavier. WHALE plans to attach deed restrictions to the property and to sell it in the Spring to a couple who will restore the property and occupy it as a home and artist studio. Mr. and Mrs. Xavier, who operate the F.S. Brightman Company, plan to move to smaller quarters.

The carriage house was formerly part of the Jones estate at 396 County Street before Seventh Street was extended. WHALE acquired the estate in 1981 and restored it as the Rotch-Jones-Duff House and Garden Museum.

CLIP AND RETURN

Captain Edward Coffin Jones built the wood-frame carriage house in 1855 or 1856, five years after purchasing the main house from the estate of William Rotch, Jr. Evidence suggests that the original building had a large central gable, no dormers and was sheathed with flush boarding in the same ochre and cream colors that the main house is now painted.

Charles Carroll, a prominent real estate developer and manager of F.S. Brightman's, purchased the property in 1921. He removed the gable, replacing it with a smaller one, and made other major changes, including the construction of an eight-stall masonry garage, which was described in the paper at the time as "the first community garage". Mr. Carroll died in 1948 and Arthur Xavier took over both the F.S. Brightman Company and 54 Seventh Street.

The Xaviers wanted to see that their home would be protected after they left it. They

were impressed with the work on the Rotch-Jones-Duff House, so they approached WHALE with a very attractive offer.

WHALE determined that the property should be preserved but would not be needed by the museum. WHALE hosted a community meeting to discuss how the building should be used. Neighbors in the South Central area wanted it to remain a single family residence, which posed a problem, as the property consists of more than 5,000 square feet.

Nevertheless, WHALE marketed the carriage house, after researching the history and commissioning restoration drawings. Patience was rewarded when a couple, both artists, approached WHALE to purchase the house and use it as a home and studio. The sale, including design deed restrictions, is scheduled to take place in May. Restoration will begin immediately thereafter.

ance proceeds and other funds which have been inactive for at least five years are returned to their rightful owners.

State Treasurer Robert Q. Crane is charged with administering this law. One of his responsibilities is to see that banks and other institutions are in compliance with the law. In the past, Treasurer Crane has had to sue banks, department stores and insurance companies to make them turn over unclaimed funds. The Treasurer's Office then must try to locate the missing owners to return their monies to them.

In March Treasurer Crane will release the names of more than 35,000 Massachusetts residents who are due unclaimed funds. These names and other information will appear in newspapers across the state.

Last year Treasurer Crane returned more than $10 million to the rightful owners or legal heirs under this statute.

implore the cause of lower taxes and limits to government as the surest course to prosperity. Anderson spearheaded the movement for lower taxes statewide and was instrumental in passage of Proposition 2½.

Republicans, Independents and Democrats from throughout the district who support the issue of tax limitation are encouraged to attend the meeting and affiliate with the Ten Tenth Congressional District Republican Council.

A spokesman for the organization said, "We are privileged to have Barbara Anderson address the Tenth Congressional District Republican Council. She represents so eloquently the voice of new Republican economics in this country, the concept that the people, not the government, know best how to manage their own money. It is ironic that Governor Dukakis and Congressman Gerry Studds, both longtime advocates of tax - tax - spend - spend, now enjoy the new era of good feeling created by the imagination and courage of the Barbara Andersons and Ronald Reagans of this country."

Acid Rain Day

On March 8th Acid Rain Day will be held from 11:00 a.m. to 1:00 p.m. in the Commonwealth College Center at the Elsbree Street campus of Bristol Community College. The event, sponsored by the BCC Chapter of MASSPIRG, will include lectures by Prof. Robert Caron of BCC and Kristen Palace of MASSPIRG. Also included will be a controversial film, "Requiem or Recovery", which addresses the acid rain issue. Information booths, letter writing tables and testing of acidity levels from local ponds are also some of the activities planned. The public is invited.

during 1984? Or did your spouse go back to work? If so, you might qualify for income averaging and it can cut your 1984 tax bill, according to the Massachusetts Society of CPAs.

Here's how to work out the basic income averaging formula: You will need your tax returns from 1981, 1982 and 1983 to determine your taxable income in those years. Start by adding up your taxable incomes for the three years. Then, divide the total by three to establish your average taxable income. Then, multiply the average by 140 percent (1.4). Holding aside this part of the formula, now work through the second step: Figure out your 1984 taxable income and subtract from it $3,000. If the total of this second step exceeds the total of the first step (average income multiplied by 140 percent), you probably qualify for income averaging.

Here's an example of how it works: In 1984, Betty, a single working woman, had a $30,000 taxable income. Using the regular tax calculation, her 1984 tax bill comes to

$6,122. Now, look what happens when she income averages: Her 1981, 1982 and 1983 taxable incomes came to $13,000, $17,000 and $20,000 respectively. Income averaging cuts her 1984 tax bill to $6,044 for a $78. savings.

Betty's $10,000 jump in income in 1984 was substantial -- though not unusual. However, when calculated with her income history for the previous three years, the 1984 income jump provides sufficient change for income averaging to pay off. CPAs say that each taxpayer's circumstances are too different to set rigid guidelines on who can and cannot benefit from income averaging.

The calculations you must complete to take this tax break may seem laborious, but the formula can usually be completed in under an hour. The IRS has thoughtfully provided Schedule G to work out the formula. Its 28 lines are easy to follow. In addition, the IRS plans an updated version of Publication 506, the guide and worksheet for calculating income averaging.

If you believe you may have missed out on using the income averaging in prior years, you can file an amended return. In fact, if you income average on an amended return, you can use the prior, more liberal income averaging formula. Amended returns can be filed for up to three years after the due date of the original return. If you need help, you may want to contact your local CPA.

Conference on Running

Geoff Smith, winner of the 1984 Boston Marathon, will be the featured local speaker at a one-day tele-conference for runners of all ages and abilities to take place at Southeastern Massachusetts University on March 9th from 10 a.m. to 4 p.m. in the SMU Library.

"This conference," said Kevin Garganta of the sponsoring Division of Continuing Studies, "is designed for runners, coaches, trainers, sports medicine specialists, and anyone interested in beginning a serious program of running for fitness. There will be updates on new running information, new concepts, and current research on the facts and fallacies of nutrition for runners."

The conference, titled "Running Your Best: Training and Strategies", will use the modern concept of the tele-conference which allows for two-way discussion between national experts and local participants. The national experts include Greg Meyer, 1983 Boston Marathon champion; Sue King, a top-ranked U.S. woman marathon runner; Billy Squires, coach of Bill Rogers and Alberto Salazar;

From Board of Health

The Mattapoisett Board of Health requests that the residents of Mattapoisett refrain from feeding the Ducks and Geese at the Town Beach.

Many of us enjoy the summer activities that the beach affords us, and if the Ducks and Geese remain there may be a possibility that the Beach will not be available this summer.

Lloyd Center

WALK TO ROCKY COASTLINE

The Lloyd Center for Environmental Studies, 430 Potomska Road, South Dartmouth, will conduct a walk for the general public to a nearby rocky coastline on Sunday, March 10th, at 1:30 p.m. There is no fee, but registration is necessary as group size is limited. Call the Center at 990-0505 to register.

Although it is the state of Maine which is widely known for its rocky shores and fascinating tide pools, our region has a few out-of-the-way pockets of rocky coastline as well. The Lloyd Center has been generously granted permission by private landowners to visit these areas. The location for Sunday's walk includes tide pools inhabited by a diversity of creatures, which the group will temporarily capture and examine with dip nets and hand lenses, evidence on the rock of the most recent glacial activity (15,000 years ago) and examples of marine algae well-adapted to this harsh environment.
